

2021 BROCHURE

Celebrating

in Business

A large, stylized silhouette of a horse in profile, facing right, rendered in a lighter shade of blue than the background. The horse is depicted in a dynamic, flowing pose, with its mane and tail appearing to be in motion. The silhouette is centered horizontally and occupies the middle ground of the image.

Welcome to the Equine Products UK Ltd 2021 Product Brochure

Pioneering Frontiers in Nutrition

In 2021 Equine Products UK Ltd enters into its 40th year in business. This represents success and trust on behalf of our customers worldwide, to which we are extremely grateful.

In 1981 Michael Reay set about establishing Equine Products UK Ltd in Newcastle and has developed renowned products worldwide such as Selenavite E, Haemavite B Plus, Premier E and Restorelyte.

The secret of our success 40 years ago, and still to this day is simple; we use the best ingredients available on the market and in the highest quantity. Quality ingredients for quality products. As a company we are proud of our illustrious history and we work tirelessly every day to provide our customers with a memorable experience.

We are focussed on all-round excellence and product quality and that is why all products manufactured by Equine Products UK Ltd are made at an approved EU manufacturing site. This is licensed under the EU Feed Hygiene legislation, requirements of which include having a testing programme for Heavy Metals, Dioxins, Active Ingredients and Analytical Constituents.

2021 represents a huge and successful milestone for our company and we look forward immensely to the future, to introducing new ranges to our portfolio and also growing our team at Equine Products UK Ltd. With over forty-five distributors worldwide along with our loyal and growing customer base in the UK, the future at Equine Products UK Ltd is bright.

NO MORE BUTE

HIGHLY ABSORBABLE & BIOAVAILABLE CURCUMIN

NO MORE BUTE is a complementary feed supplement for horses containing bioavailable Curcumin.

NO MORE BUTE is completely stable through the digestive system and delivers Curcumin to the intestinal wall for maximum absorption and effect. No More Bute is up to 185 times more bioavailable than native sourced Turmeric/Curcumin.

PRODUCT BENEFITS

- Powerful antioxidant formula
- Supports the recovery process after training and competition
- Ideal during periods of intensive exercise and recovery
- No Withdrawal Period

1.2ltr Container
(40 Measures)

5ltr Container
(166 Measures)

DAILY FEEDING INSTRUCTIONS

INSTRUCTIONS FOR PROPER USE

Add to the normal feed ration and shake well before use.

Competition / Intense Exercise: **Feed 60ml per day.**

Maintenance: **Feed 30ml per day.**

COMPOSITION

Sorbitol, Glycerine, Propylene Glycol

ADDITIVES

Curcuma Longa L

per 60ml
3000mg

EQUINE OAP

SUPPLEMENT TO AID THE VETERAN HORSE

Equine OAP is total spectrum complementary feed for older horses.

Providing vitamins, minerals, trace elements, probiotics, prebiotics and a protein source for maintenance of general health and vitality.

DAILY FEEDING INSTRUCTIONS

Add 50g per day to the normal feed ration. A scoop is included which dispenses approximately 50g

Additives	Per 50g	Per 1kg	Digestibility Enhancers	Per 50g	Per 1kg
Vitamin A	30,000iu	600,000iu	4b1702		
Vitamin D3	4,000iu	80,000iu	Saccharomyces

Vitamin B12	250mcg	5000mcg	3b810 Selenium		
			(Selenised Yeast)	1mg	20mg

PRODUCT BENEFITS

- **Digestive Tract Nutrients**

The Probiotic Saccharomyces Cerevisiae and Prebiotic Fructo-oligosaccharides

- **Hoof Growth**

Biotin, Sulphur, Zinc and Copper

- **Mobility Maintenance**

Methyl sulphonyl methane, Manganese, Vitamin C

- **Bone Structure**

Calcium, Phosphorous, Magnesium, Vitamin C and Vitamin D

- **Energy and Vitality**

Full spectrum of B Vitamins

- **Muscle Maintenance**

Vitamin E, Selenium yeast and Amino Acids from Inactivated Yeast

- **Immune Status Maintenance**

Vitamins A, C, Zinc.

FLAIR NASAL STRIPS

EXCLUSIVE DISTRIBUTORS IN THE UK AND IRELAND

Developed by Veterinarians, FLAIR Strips are drug-free, self-adhesive nasal strips that promote optimum health of equine athletes, in all disciplines and at every level of competition.

The spring-like action in FLAIR Strips supports the soft tissues over the nasal passages to reduce the tissue collapse that occurs in all horses during exercise. Horses wearing FLAIR Strips have been shown to use 5-6% less energy during intensive exercise, and supporting the nasal passages during recovery aids with cooling out more quickly.

When horses exercise heavily, their nasal passages collapse. By preventing this collapse FLAIR Nasal Strips are clinically proven to:

- Reduce fatigue
- Conserve Energy
- Quicken Recovery

Available in
Singles or 6 packs

HOW TO APPLY

1 CLEAN AND DRY NOSE, BRUSH HAIR ON NOSE UPWARD

2 BEND SIDE EDGES OF STRIP DOWN ALONG SCORE MARKS

3 REMOVE LINER FROM ADHESIVE ON THE BACK OF THIS GUIDE. ALIGN THE TOP EDGES OF GUIDE AND STRIP AND STICK FRONT OF STRIP TO GUIDE.

4 REMOVE PROTECTIVE BACK LINER FROM STRIP. HOLD EDGES OF GUIDE AND CENTER OVER NOSE WITH RED ARROWS AT TOP EDGE OF NOSTRILS. PRESS STRIP DOWN FIRMLY, ESPECIALLY ALONG EDGES.

5 REMOVE GUIDE. THE BOTTOM EDGE OF STRIP WILL BE POSITIONED 1 1/2" ABOVE THE TOP OF NOSTRILS.

BREEZE-UP

ASSISTS HEALTHY BREATHING

1ltr Container (33 Measures)

DAILY FEEDING INSTRUCTIONS

INSTRUCTIONS FOR PROPER USE

Breeze Up is suitable for feeding to horses with irritated airways.

All horses: Feed 30ml twice daily.

COMPOSITION

Apple Cider Vinegar, Honey, Garlic, Lemon Juice

ADDITIVES

	per 30ml
Eucalyptus	300mg
Menthol	12mg

Healthy breathing is essential for horses and ponies which may be affected by external factors.

Breeze-Up has been formulated to assist healthy breathing in hostile environments where dust is present.

It only contains natural ingredients and can be added to the feed, or fed directly to the horse.

Use at the first signs of discomfort.

PRODUCT BENEFITS

- Contains eucalyptus and menthol
- A natural aid to healthy breathing
- Aids with respiratory issues when dust or pollen are present
- Suitable for all equines
- Contains honey and plant extracts

FREE FLOW

EASY TO USE ONE SHOT SYRINGE

Free Flow is a completely new herbal product which has been formulated to aid micturition. The benefit to the horse is that the waste products and toxins may be removed from the animal's system more quickly.

Free Flow contains a unique blend of natural herbal extracts combined in a palatable gel base.

Free Flow can be used in conjunction with EIPH Defence which has been used in the field for a number of years and has been found to assist in the maintenance of a healthy circulatory system.

PRODUCT BENEFITS

- 100% herbal product containing bearberry, marshmallow root, cornsilk and juniper
- Easy to use one shot syringe
- Aids removal of excess fluids
- Beneficial to keep the animal's mouth sponged moist after use and before competition
- Use in conjunction with EIPH for maximum results

3 x 30g Syringes

DAILY FEEDING INSTRUCTIONS

INSTRUCTIONS FOR PROPER USE

Orally administer to the back of the mouth

One 30g syringe 3 - 4 hours prior to intensive exercise.

COMPOSITION

Bearberry, Cornsilk, Glucose Syrup

ADDITIVES	per 30g
Juniper	2900mg
Marshmallow Root	2900mg

CALAVITE

CALCIUM & VITAMIN D FEED BALANCER

**Calcium is the key to strong and healthy bones.
It is also essential for the proper function of the
nervous system.**

Calavite was developed to assist in the maintenance of healthy levels of Calcium, by also including in the formulation a carefully calculated proportion of Vitamin D3 and Vitamin A which aid absorption and utilisation of Calcium.

An ideal supplement for foals, young stock and lactating mares.

25kg Tub

4kg Tub

10kg Tub

DAILY FEEDING INSTRUCTIONS

Lactating mares	50g
Stallions at stud / horses in training & work	40g
Foals after weaning	25g
Ponies	15 - 25g

COMPOSITION

Calcium Carbonate	99.8%
-------------------	-------

ADDITIVES

	per 50g
Vitamin A	25,000iu
Vitamin D3	5,000iu

PRODUCT BENEFITS

- Assists in establishing healthy bones in foals and young stock
- Contains a balanced proportion of Vitamin D3 and Vitamin A
- Particularly important for horses being fed oats or barley, which can disrupt ideal Ca/Ph ratios due to high levels of Phosphorous
- Economical product with future benefits

CAL-PHOS

CALCIUM & PHOSPHORUS FEED ADDITIVE

Calcium and phosphorous are two of the most important macro-minerals in terms of quantity required by horses, but it is the ratio of these elements which is crucial.

This is particularly important where horses are fed a diet with high grain intake as grains can have a ratio of phosphorous to calcium as high as 6 to 1.

Calcium is essential for development of strong bones. Regular feeding of Cal-Phos can assist in the maintenance of a balanced ratio of 2 calcium to 1 of phosphorous in the diet as a whole and can help to supply essential salt.

PRODUCT BENEFITS

- Helps to maintain calcium/phosphorous balance
- Assists in supplying essential salts
- Ideal for foals and yearlings to aid skeletal development
- Ideal for mares in foal and lactating mares

DAILY FEEDING INSTRUCTIONS

Horses	100g per day
Foals & Ponies	50g per day

ANALYSIS

Calcium Carbonate	50%
Dicalcium Phosphate	25%
Sodium Chloride	25%

1kg Tub (20 Measures)

MUSCLE MAKER

HIGH ANTIOXIDANT AND HIGH ENERGY
MUSCLE BUILDING SUPPLEMENT

Muscle Maker is used to aid muscle mass development.

It is ideal for maintaining peak performance
throughout the season and for bringing on slow
developers.

It contains a natural, high energy body building source
and a high concentration of key ingredients to aid muscle
development.

DAILY FEEDING INSTRUCTIONS

Add to the normal feed ration at the rate of 50g per day.
A scoop is enclosed in each pack - each scoop contains
approximately 50g.

COMPOSITION

Per 1kg

Calcium-Hydroxy-Methyl Butyrate Monohydrate	50,000mg/kg
Gamma Oryzanol Powder from Rice Bran	65,000mg/kg

ADDITIVES

per 1kg

Vitamin E	50,000iu	Calcium D-pantothenate	200mg
Vitamin C	50,000mg	Vitamin B2	160mg
Lysine HCL	30,000mg	Vitamin B6	60mg
Methionine	20,000mg	Folic Acid	20mg
Niacinamide	5,000mg	Vitamin B12	3,000mcg
Vitamin B1	3,000mg	3b810 Selenium (Selenised Yeast inactivated)	15mg

PRODUCT BENEFITS

- Ideal for maintaining peak performance throughout the season
- High concentration of antioxidants for muscle support and development
- High concentration of HMB and Gamma Oryzanol for power and muscle growth
- No Withdrawal Period

OPTIMA BCAA POWDER

BRANCH CHAIN AMINO ACID POWDER FOR MUSCLE
PROTECTION & DEVELOPMENT

Optima BCAA is a unique combination of the branch chain amino acids L-Valine, L-Leucine and L-Isoleucine as well as the conditionally essential amino acid L-Glutamine.

Branch Chain Amino Acids constitute about one third of a horse's muscle mass. They are essential to maintaining the integrity of the musculature during periods of intensive exercise and competition.

Supplementation with Optima BCAA can assist in reducing incidents of exercise induced muscle damage.

PRODUCT BENEFITS

- Supports muscle growth
- Assists in delaying onset of lactic acid
- Helps reduce fatigue
- Enhances muscle recovery

500g Tub

DAILY FEEDING INSTRUCTIONS

Routine use - **Feed 12.5g twice daily.**

For 4 days prior to, and two days after competition - **Feed 25g twice daily.**

One heaped scoop (included in tub) = **approx. 12.5g**

COMPOSITION

Calcium Carbonate, Dextrose, Maize Starch, Glutamine Peptides

ADDITIVES

	per 12.5g
L-Leucine	5000mg
L-Valine	4200mg
L-Isoleucine	1800mg

OPTIMA BCAA PASTE

Branch Chain Amino Acid PASTE for muscle protection & development

Branch Chain amino acid supplementation has been shown to delay the onset of fatigue and the build up of lactic acid.

Supplementation of BCAA can help to reduce protein and muscle break down during periods of intensive exercise.

3 x 57g Syringes

DAILY FEEDING INSTRUCTIONS

GUIDELINES FOR PROPER USE

Add **½ syringe** to the morning feed and **½ syringe** to the evening feed.

For 4 days prior to competition, and one day after competition add **1 syringe** to the morning feed and **1 syringe** to the evening feed.

COMPOSITION

L-Glutamine Peptides

ADDITIVES

	per kg
L-Leucine	172,000mg
L-Valine	144,000mg
L-Isoleucine	62,000mg

PRODUCT BENEFITS

- Delays the build up of lactic acid
- Improves performance and general well being
- Stimulates the building of proteins in muscles
- Helps reduce fatigue

COOL IT PASTE

COOLING PASTE

Cool It Paste is a complementary feedingstuff for horses containing L-Tryptophan, Magnesium, Vitamin B1 and the Probiotic *Saccharomyces Cerevisiae*.

It should be fed to horses as a nutritional adjunct during times of increased stress factors such as travel, competition, changes in training regime or stables and external factors which could increase nervous tension such as fireworks, loud noises, crowds, or attending the farrier or veterinary surgeon.

PRODUCT BENEFITS

- Contains L-Tryptophan / Magnesium and Vitamin B1
- Also contains a probiotic *Saccharomyces Cerevisiae*
- Easy to use one shot syringe
- No Withdrawal Period

1 x 30g Syringe

DAILY FEEDING INSTRUCTIONS

Administer 1 full syringe 3-4 hours before requirement

COMPOSITION

Canola Oil, Magnesium Oxide in chelated form, Natural Fruit Flavour (Banana)

ADDITIVES

L-Tryptophan
Vitamin B1

(per 30g)
1,200mg
60mg

DIGESTIBILITY ENHANCER

4b1702 *Saccharomyces Cerevisiae* 1 x 10¹⁰ CFU, (NCYC SC 47)

ANALYTICAL CONSTITUENTS

Crude Fibre	0.2%
Crude Ash	24.5%
Sodium	0.165%
Magnesium	8.6%

900g Tub (30 Doses)

COOL IT POWDER

CALMING POWDER

Cool It Powder is a complementary feed for horses, which is suitable for feeding as a nutritional adjunct in the following circumstances;

- Stress factors such as travel or competition
 - Changes in training regime or stables
- Prior to firework occasions, loud noises, crowded events or attending the vet or farrier
- As a maintenance ration fed to nervous or unmanageable horses

DAILY FEEDING INSTRUCTIONS

Feed 30g per day as maintenance dose. 1 scoop is included and weighs approximately 30g

COMPOSITION

Magnesium Oxide in Chelated form, Calcium Carbonate, Maize Starch, Dextrose, Mannan-oligosaccharides.

ADDITIVES

	(per 30g)	(per 1kg)
L-Tryptophan	2,000mg	66,700mg
Vitamin B1	60mg	2,000mg

DIGESTIBILITY ENHANCER

4b1702 Saccharomyces Cerevisiae 4.5 x 10¹¹ CFU, (NCYC SC 47)/KG

ANALYTICAL CONSTITUENTS

	(per 1kg)
Crude Protein	13%
Crude Oil	<0.5%
Crude Fibre	0.4%
Crude Ash	34.4%
Sodium	0.07%
Calcium	7.64%
Magnesium	7.72%

PRODUCT BENEFITS

- Contains L-Tryptophan / Magnesium and Vitamin B1
 - Also contains a probiotic Saccharomyces Cerevisiae
- Palatable powder and 1 scoop per day as a maintenance dose
 - No Withdrawal Period

SAND SHIFTER

PSYLLIUM - ASSISTS REMOVAL OF SAND & SOIL PARTICLES
IN THE GUT

Sand Shifter contains psyllium husk powder, a revolutionary bulk forming natural fibre derived from psyllium seed.

Once in the horse's digestive tract, psyllium forms a fibrous gel which adheres to the sand particles preventing them from staying in the gut and causing potential blockages. Its bulk forming capacity encourages movement by peristalsis, aiding the removal of blockages from the horse's digestive tract.

Aniseed flavouring normally irresistible to horses has been added to increase palatability.

PRODUCT BENEFITS

- Contains kaolin to aid the whole digestive process
- Specially formulated for horses or ponies grazing sandy loams or short grass
- Highly palatable, assists in easing the movement of sand particles through the gut
- Unique aniseed flavouring irresistible to horses

DAILY FEEDING INSTRUCTIONS

For a 500kg horse feed 150g of powder for 4-5 days.

Once the sand particles have been eased through the gut the horse may require feeding for a further **2-3 weeks** to rid the colon of sand.

For horses grazing sandy loams or short cropped grass, feed **50g twice daily for seven consecutive days, once every 3-4 weeks** or as directed by your veterinary surgeon.

ANALYSIS (per kg)

Psyllium Husk Powder
Aniseed flavouring

629g

TRANSVITE

High concentration probiotic paste - Essential additive for young stock

3 x 30g Concentrated Paste

DAILY FEEDING INSTRUCTIONS

Feed 5g per day

ANALYSIS

10,000 million viable natural microencapsulated enterococcus faecium M74 organisms

(per 1g)

ANALYSIS

100 x 10¹¹ Cfus

(per kg)

Beneficial and harmful bacteria exist in a fine balance in the intestines of every animal. This balance can be upset at times of stress.

TransVite helps to promote and maintain a healthy digestive system enabling all animals, prone to stress, maintain condition and energy levels. It also helps to give young stock the best possible start in life by helping to establish healthy levels of beneficial gut bacteria.

PRODUCT BENEFITS

- Probiotic with high levels of microencapsulated viable bacteria that is fast acting and effective
 - Assists in establishing beneficial digestion following antibiotic treatment
- Ideal when used before competition, travel, training and/or diet change
- Combats stress the natural way and aids with appetite, condition, performance, general health and the digestion of nutrients
- Beneficial to young stock when used after birth and during weaning

TRANSVITE EXCEL

The Ultimate Gut Balancer - 250% Stronger
than Leading Brands

TransVite Excel Probiotic Powder contains 3,500 million viable natural *Saccharomyces Cerevisiae* organisms per 1g which help supply a healthy balance of micro-organisms in the gut during periods of stress.

It also contains the Prebiotic Fructo Oligosaccharide which is a food substrate for beneficial bacteria in the hind gut.

PRODUCT BENEFITS

- High grade Probiotic & Prebiotic containing high levels of *Saccharomyces Cerevisiae*
- Ideal for digestive function and general well being
- Keeps your horse happy on the inside and looking well on the outside
- Raising the bar in Equine Gut Nutrition with this superior new product

9kg Tub

1.5kg Tub

DAILY FEEDING INSTRUCTIONS

Sprinkle powder on food, a scoop is provided in the container - each scoop contains approximately 25g. Feed 5g of TransVite Excel per 100g of bodyweight

Composition

Fructo oligosaccharides, Calcium Carbonate, Dextrose

Additives

(per 1kg)

Digestibility Enhancer and Gut
Flora Stabiliser 4b1702,
Saccharomyces Cerevisiae

3.5 x 10¹² cfu

Crude Fibre 0.1%, Sodium 0.033%

10kg Tub

1kg Tub

DAILY FEEDING INSTRUCTIONS

Add to the normal feed ration. For horses, weanlings and ponies with impaired digestive function feed 20g per day. For maintenance of a good digestive function feed 10g per day.

A scoop is provided - 1 level scoop = approximately 20g.

COMPOSITION:

Fructo-oligosaccharides (500,000mg/kg), Dextrose

ADDITIVES:

4b1702 Saccharomyces Cerevisiae

(per 1kg)

1.5×10^{12} (NCYC Sc 47)

ANALYTICAL CONSTITUENTS:

Crude Protein	5.73%
Crude Oil	0.4%
Crude Fibre	<0.5%
Crude Ash	1.6%
Sodium	0.014%

TRANSVITE DIGEST

Probiotic & Prebiotic to Improve Fibre Digestion

Beneficial and harmful bacteria exist in a fine balance in the intestines of every animal. This balance can be upset at times of stress.

TransVite helps to promote and maintain a healthy digestive system enabling all animals, prone to stress, maintain condition and energy levels. It also helps to give young stock the best possible start in life by helping to establish healthy levels of beneficial gut bacteria.

PRODUCT BENEFITS

- High grade Probiotic and Prebiotic to promote a healthy digestive system
- Helps promote and maintain a healthy digestive system
- A daily source of beneficial bacteria in an economical way
- Provides a food source for naturally occurring probiotics already present in the gut
- Aids in competitive exclusion of pathogenic bacteria

COMFORT GUT

ACTIVATED CHARCOAL

Comfort Gut is mildly alkaline, ultra smooth pored, very low ash, vegetal carbon, designed specifically for feeding. It absorbs (binds to) toxins in the digestive tract like excess acid and eliminates it from the horses digestive system in the manure.

Comfort Gut can play a role in helping to maintain healthy gastric acid levels and can be fed long term without disrupting acid production which is required to break down food for proper digestion and absorption of nutrients.

Comfort Gut has been shown to contribute to better utilisation of feed with older horses, poor doers, horses under stress and in hard work.

Comfort Gut is isotonically attracted to gas, toxins, impurities and 'dirt'. Comfort Gut binds to them and then carries them out of the horses system in their dung.

On average a 1kg tub lasts a horse 4 weeks and a pony 6 weeks.

1kg Tub

500g Tub

DAILY FEEDING INSTRUCTIONS

Horses	2 x 15ml scoops to be given twice daily in feed stuff
Ponies	1.5 x 15ml scoops to be given twice daily in feed stuff
Foals	1 x 15ml scoops to be given twice daily in feed stuff
1 scoop included = 15mm	

Composition

Vegetal Carbon (Powder Charcoal)

EVERYDAY ELECTROLYTE

ECONOMICAL & DERIVED FROM LOSS OF ELECTROLYTES IN HORSES SWEAT

A highly effective specification derived from the actual loss of electrolytes in horse sweat and formulated for long-term daily use.

A 50g measure replaces electrolytes lost in 2.5 litres of sweat, during exercise, very hot conditions, travel or after a race or competition.

20kg Tub

1kg Tub

DAILY FEEDING INSTRUCTIONS

Horses = 50g (one measure)

Ponies = 25g (half measure)

ANALYSIS

	(per 50g)
Sodium Chloride	23g
Magnesium Sulphate	9g
Potassium Chloride	7g
Sodium Bicarbonate	4.75g
Dextrose	3.25g
Calcium Carbonate	3g

Access to fresh drinking water is vital when feeding this product.

PRODUCT BENEFITS

- Formulation derived from composition of equine sweat
- Palatable flavour
- Assists with the movement of glucose to cells for energy metabolism
- Economical - 400 measures per 20kg tub and can be used for every horse everyday

RESTORE-LYTE POWDER

ELECTROLYTE WITH ANTIOXIDANT & ENERGY SOURCE

Restore-Lyte is designed to assist with the rapid replacement of ion salts lost through sweating during exercise or very hot conditions.

The correct balance of ionised body salts (positive and negative) are vital to a horse or pony's wellbeing and the capability to perform at peak levels.

PRODUCT BENEFITS

- Helps maintain muscle integrity and energy supply
- Contains a non-glucose carbohydrate source
- Contains the amino acid glycine which can improve the efficacy of dietary electrolyte supplementation
- Contains Vitamin C, an important antioxidant
- Strawberry flavour & colouring and very palatable

Access to fresh drinking water is vital when feeding this product.

PRODUCT BENEFITS

- Readily available energy replacement
 - Restores muscle glycogen levels
- Fully in solution for quick absorption
- Helps horses recover from intensive training and competition
 - Economical to use in feed or fed directly to the horse
- Restore-Lyte Liquid can be fed in conjunction with Restore-Lyte Powder to make Electrolytes more palatable, and boost Electrolyte intake

RESTORE-LYTE GEL

EASILY ABSORBED ELECTROLYTE GEL - IDEAL AFTER COMPETITION OR IN TRANSIT

Replacing essential body salts and water loss during sweating and exercise, through a rehydration supplement, assists the horse's ability to remain fit, healthy and able to perform at peak levels.

PRODUCT BENEFITS

- Easy to use as a one shot syringe after competition and hard work
- Helps horses to achieve maximum potential
- Starts the process of electrolyte replacement after sweating
- Encourages water consumption

100% Linseed Oil

COD LIVER & LINSEED OIL

PROMOTES HEALTH, DIGESTION & CONDITION

Feed as a supplement to the horse's diet to maintain healthy skin, a glossy coat and strong bones.

Cod Liver Oil has been shown to aid in the maintenance of joint mobility and suppleness.

PRODUCT BENEFITS

- Cod Liver Oil is rich in vitamins A & D
- Helps promote a shiny, glossy coat
- Helps maintain supple joints
- Contains vitamin A which is important for vision, reproduction and digestion

Linseed Oil is renowned for its properties as a mild digestive aid. Fed on a regular basis it promotes a glossy, healthy coat. It also contains a high level of the essential fatty acids, Omega 3 and Omega 6. Omega 3 and Omega 6 are essential for healthy cell membranes.

PRODUCT BENEFITS

- Linseed Oil is ideal when showing or competing
- Contains essential fatty acids, Omega 3 and Omega 6
- Gets horses into peak condition with a glossier coat
- Helps improve muscle tone, fitness and overall performance

GARLIC GRANULES & GARLIC HONEY

HIGH GRADE & TOP QUALITY GRANULES AND STIMULANTS

PRODUCT BENEFITS

Garlic Granules is the natural way to promote your horse's good health. Now it is supplied in a simple to use re-sealable foil pack. Feeding garlic may help maintain respiratory function.

COMPOSITION

- 100% pure Garlic Granules

PRODUCT BENEFITS

Garlic has long been recognised and valued for a wide range of properties believed to affect circulatory and respiratory systems whilst honey is an appetising source of energy-giving natural sugar. Garlic Honey helps to maintain appetite using 100% pure garlic oil and finest quality honey.

COMPOSITION

- Honey & Garlic Juice

FARRIERS FRIEND HOOF OIL

HOOF DRESSING MADE FROM HIGH QUALITY
NATURAL WAXES AND OILS

20ltr
Container

5ltr Container

800ml Container with Brush

2.5ltr
Container

A traditional blend of natural waxes and mineral oils specifically formulated to help maintain healthy hooves and sound hoof growth.

Farriers Friend helps protect the hoof in wet conditions by improving water resistance and in dry, hot conditions it aids moisture retention and natural elasticity.

Farriers Friend assists healthy sound hooves all year round.

PRODUCT BENEFITS

- Contains natural ingredients
- Maintains moisture content of the hoof
- Easy to use for a quality finish
- Supplied in 800ml container with brush and also refill sizes of 2.5ltr, 5ltr and 20ltr

APPLICATION INSTRUCTIONS

Apply to hoof wall, sole and frog with hoof oil brush.

ANALYSIS

Natural waxes, Mineral oils

BIO-TRITION ZMC ADVANCED

ESSENTIAL BIOTIN, TRACE ELEMENTS & AMINO ACIDS
- MAINTAINS HEALTHY HOOF GROWTH

Bio-Triton ZMC Advanced is a complementary feedingstuff for Horses, which contains high levels of Biotin - an essential vitamin for the maintenance of good hoof quality.

It also contains Methionine and Cysteine which are Amino Acids with a very high Sulphur content. Sulphur is required for the keratinisation of the hoof.

This product supplies significant levels of Zinc, and Calcium, the inclusion of which can nutritionally assist in ensuring correct and balanced growth of the hoof.

PRODUCT BENEFITS

- Contains two Sulphur containing Amino Acids Methionine and Cysteine, essential for Keratin formation
- Also contains high levels of Biotin and Zinc
- Designed to aid healthy hooves and encourage growth

FARRIERS FRIEND

HOOF HEALTH SPRAY - MAINTAINS SOLE & FROG HEALTH

600ml Bottle

APPLICATION INSTRUCTIONS

Use as and when required.

CONTAINS

Organic acids, Essential oils, Zinc, Copper

Farriers Friend Hoof Health Spray is a new formulation designed to help prevent sole frog and hoof ailments.

For maximum effect it should be applied twice a day after hooves have been picked out and cleaned. Just two sprays per affected area is all that is required.

The solution helps maintain the correct pH levels in the hoof and so reduce pathogenic challenge from hoof bacteria and viruses.

PRODUCT BENEFITS

- Unique formulation provides a barrier which keeps hooves clean and dry
- Contains essential oils, Zinc and Copper
- Totally natural product
- Economical & easy to use - approximately 480 applications per 600ml pack

FLEXIVITE HA

**FAST ACTING MOBILITY SUPPLEMENT WITH ADDED
HYALURONIC ACID**

The latest innovation in joint care, FlexiVite HA is founded on new technological breakthroughs that combine the best of the 'tried and tested' ingredients with new chemistry.

FlexiVite is an oral feed supplement which provides a unique combination of biologically active substances known to maintain supple joints in horses. Unique to Equine Products UK Ltd, FlexiVite enhances lubrication, shock absorption and elasticity.

PRODUCT BENEFITS

- Combines biologically active substances known to maintain supple joints and form a "cushion like" structure surrounding joints
- Contains Hyaluronic Acid which maintains viscosity of the synovial fluid
- Founded on new technological breakthroughs
- Contains high levels of Glucosamine, MSM, Chondroitin Sulphate and Hyaluronic Acid in highly absorbable forms

1ltr Container

5ltr Container

2.5ltr Container

DAILY FEEDING INSTRUCTIONS

60ml per day for the first 7 consecutive days, 30ml per day thereafter.

ANALYSIS

	(per 30ml)
D-Glucosamine Hydrochloride	5000mg
Methyl Sulphonylmethane (MSM)	2000mg
Chondroitin Sulphate	1000mg
Phenylalanine	59mg
Aspartic Acid	50mg
Glutamic Acid	36mg
Serine	29mg

MSM

100% PURE MSM - BIOAVAILABLE SULPHUR
FOR JOINT CONDITION

1kg Tub (200 Measures)

DAILY FEEDING INSTRUCTIONS

GUIDELINES FOR PROPER USE

Methyl Sulphonyl Methane (MSM) should be added to the normal feed ration.

Feed 5g twice daily as required.

One full scoop (included in each pack) contains 5g.

COMPOSITION

Methyl Sulphonyl Methane

100%

Methyl Sulphonyl Methane (MSM) is an excellent source of Bioavailable Sulphur, which is vital for the formation of all connective tissue including cartilage in joints.

Sulphur is also a major component of keratin which plays important roles in hoof and hair condition.

PRODUCT BENEFITS

- Pure 100% MSM with good palatability
- Improves performance and general well being
- Optimises natural recovery time following competition and exercise

SELENAVITE E POWDER

HIGH CONCENTRATION VITAMIN & TRACE ELEMENT
SUPPLEMENT HIGH IN VITAMIN E

Recognised as a comprehensive and effective all-round quality horse and pony feed supplement. Selenavite E is a balanced supplement which provides some 21 micronutrients including trace elements, vitamins and amino acids.

There is no better way to assist the ongoing health, wellbeing and good condition of your horse or pony.

PRODUCT BENEFITS

- Contains essential vitamins
- Also contains supplementary amounts of trace elements and amino acids
- A balanced feed supplement for everyday use, supplying 21 micronutrients
- Very high in Vitamin E, 2,000mg/day
- The Ultimate Feed Balancer in supplement form

- Provides essential micronutrients for maximum performance
- Palatable molasses base
- New improved 5 litre container to maximise stability and nutrient efficiency

COPPER-TRITION

SUPPLEMENTAL COPPER TO ASSIST PERFORMANCE, GROWTH AND DEVELOPMENT IN DEFICIENT AREAS, WITH ESSENTIAL VITAMINS. HIGH IN VITAMIN E.

Copper-Triton is a vital vitamin and mineral nutritional supplement containing essential vitamins including Vitamins E, B6, Folic Acid and B12. Most importantly, it contains very high levels of organically chelated Copper, as well as Manganese and Zinc.

It is well recognised that there is a need for a supplementary source of copper for horses and ponies aiming for high levels of performance.

PRODUCT BENEFITS

- Copper-Triton contains high levels of chelated copper required for synthesis of connective tissue, red blood cell production and healthy hair and hoof condition
- More Red Blood Cell production means more oxygen to the muscles
- Organic Copper is absorbed quicker and more efficiently
- Contains B Vitamins for energy metabolism and helps support maximum performance

COPPER-TRITON MULTI-BOOST

HIGH LEVELS OF ORGANIC COPPER WITH VITAMINS
& TRACE ELEMENTS. HIGH IN VITAMIN E

Copper is an important mineral as it is used in the creation and maintenance of elastic structures such as connective tissue.

Copper is especially important in young growing horses, as bone collagen is one of the structures that relies on the presence of copper to develop correctly.

Copper-Triton Multiboost in daily easy feeding sachets is designed for supplementation to horses with very low copper status.

PRODUCT BENEFITS

- Copper-Triton Multiboost contains the same important nutrients as Copper-Triton, but contains significantly more copper for feeding to horses with low levels of this essential trace element
 - Aids performance and wellbeing
- Supplies nutritionally significant amounts of organic copper and trace minerals and vitamins
 - Copper helps create red blood cells which in turn carry oxygen throughout the horse's body

1kg Tub

DAILY FEEDING INSTRUCTIONS

30g per day. Twice daily in competition, racing and endurance.

ADDITIVES

Dimethylglycine

(per 30g)
6000mg

DMG 6000

HIGH CONCENTRATION DMG FOR OXYGEN UTILISATION
& LACTIC ACID CONTROL

Dimethylglycine is an amino acid metabolite. Body cells produce this substance during the processing of the methionine amino acid.

It is classified as a metabolism enhancer or an ergogenic substance, which means that it is an essential part of general body function.

PRODUCT BENEFITS

- Improves oxygen and nutrient flow in cells thus reducing lactic acid production and fatigue
 - Enhances energy levels
- Aids in recovery from strenuous exercise
 - Ideal for High Level Performance with High Concentration of DMG

EQUINE ENERGISER

ALTERNATIVE CARBOHYDRATE & SOURCE OF
CONSTANT ENERGY

Equine Products UK Ltd pioneered the use of alternative carbohydrates instead of glucose to assist in the replacement of energy lost during hard exercise and to aid recovery after competition.

These carbohydrates, unlike the carbohydrate glucose, appear to re-enforce the energy stores of the muscle and liver more effectively. Equine Energiser has helped produce results in all areas of equine competition.

100g Sachets

PRODUCT BENEFITS

- Assists in the promotion of stamina and peak performance
- Supplies a stream of constant energy with no highs or lows in energy supplies
- Suitable for endurance horses, team chasers, event horses, show jumpers, trotters, polo ponies, dressage horses, national hunt horses, point to pointers and race horses

DAILY FEEDING INSTRUCTIONS

Pre-competition	100g
Post-competition or after hard exercise	100g

Prolonged competition such as endurance races, feed 50g during rest intervals, and 100g post race.

ANALYSIS	(per 100g)
Blend of nutritive saccharides containing just 3% Glucose & 90% higher polysaccharides	100g

1.5kg Tub (30 Measures)

EXTRA INPUTS FOR PERFORMANCE HORSES

CONTAINS HIGH LEVELS OF MAGNESIUM, ARGININE, VITAMIN C AND HESPERIDIN

Extra Inputs for Performance Horses is a complementary feed for horses designed to be fed to performance horses for the maintenance of a normal respiratory system.

Containing high levels of Arginine, Magnesium, Vitamin K, C, B6 & B12 and Folic Acid and Hesperidin, this can be used on a daily basis for maintenance of the respiratory system.

The addition of citrus bioflavonoids will help maintain capillary elasticity and flexibility with the aim of assisting performance and well being.

DAILY FEEDING INSTRUCTIONS

Daily - Feed 50g per day (approximately 1 scoop)

ANALYSIS

	(per 50g)
Vitamin C	10,000mg
L-Arginine	5,000mg
Vitamin K3	100mg
Vitamin B6	100mg
Folic Acid	60mg
Vitamin B12	1,000mcg
Chelated Magnesium	5.51%

PRODUCT BENEFITS

- Very high levels of Vitamin C to aid for antioxidant support
- Citrus bioflavonoids added at 50,000mg per kg to aid elasticity of capillaries
 - Arginine and Magnesium for maintenance of normal blood pressure
- Use in conjunction with FREEFLOW for maximum results.

HAEMAVITE B PLUS

IRON & B VITAMIN TONIC FOR ENERGY AND RECUPERATION

This highly palatable supplement is designed to assist in the maintenance of healthy blood levels and contains four key elements in an appetising syrup base.

It is routinely fed prior to races or competition to assist maximum levels of essential blood nutrients needed by horses and ponies when in hard work. Additional amounts should be fed only on veterinary advice.

PRODUCT BENEFITS

- Contains Vitamins B6, B12, and Folic Acid; as well as Iron which is rapidly absorbed in the gastro-intestinal tract
- Assists with energy metabolism and red blood cell production
- Encourages poor feeders in an appetising flavour
- Available in 50g sachets as an additional booster when required

HEPATRITION

VITAL NUTRIENTS TO MAINTAIN A NORMAL LIVER FUNCTION

Hepatriton is a complementary feedstuff which should be fed to horses to provide key feed ingredients required for normal liver function.

Hepatriton contains a complex suite of amino acids, antioxidants and vitamins including Taurine, Cysteine, Milk Thistle, L-Arginine and Alpha Lipoic Acid.

PRODUCT BENEFITS

- Convenient 20 day course with no withholding period
- Assists in maintaining a normal liver function
 - Aids performance and wellbeing
 - Additional vital B-Complex vitamins necessary for metabolic processes
- 80% Pure Silymarin/Milk Thistle content

IRON PLUS PASTE

IRON TONIC

Iron Plus paste is a complementary feedingstuff containing Iron for all performance animals.

Iron is needed for Red Blood Cell formation and other metabolic functions relating to exercise.

PRODUCT BENEFITS

- Fast absorbing Iron and Folic Acid for maximum performance and recovery
- Palatable flavour in an easy to use syringe
- 1 syringe lasts 3 - 6 days depending upon requirements

6 x 30ml Syringes

ANALYSIS

L-Carnitine	(per 30g) 5,000mg
-------------	-----------------------------

L-CARNITINE

FOR FAT METABOLISM & LACTIC ACID BUFFER

L-Carnitine is an essential co-factor in muscle metabolism, during exercise, forming the transport system which moves fatty acid into the mitochondria (cell furnaces) for energy production.

L-Carnitine also acts as a physiological buffer in inhibiting the build up of lactic acid, helping delay the onset of fatigue in muscles.

PRODUCT BENEFITS

- Increases maximum work output and improves the utilisation of fatty acids
- Decreases levels of lactic acid build-up
- L-Carnitine is an essential cofactor in muscle metabolism during exercise and enhances energy supply

LY-PIC+

NOVEL ANTIOXIDANT WITH VITAMINS FOR ENERGY PRODUCTION

Ly-Pic+ is a complementary feedstuff, packed in convenient daily dose sachets, which should be fed to horses for 3-4 days immediately prior to, and after a race, competition or strenuous exercise.

Ly-Pic+ contains B-Complex vitamins which are vital for conversion of feed into energy.

It also contains Alpha Lipoic Acid - a novel antioxidant and co-enzyme for energy production.

PRODUCT BENEFITS

- Convenient daily dose sachet
- Provides vital B-Complex vitamins necessary for metabolic processes
- Contains Alpha Lipoic Acid, a novel antioxidant which is both water soluble and fat soluble, protecting the cell against oxidative stress
- Feed pre and post race / competition to aid with performance and recovery

NO TIES

ALKALI PROVIDER - ASSISTS TO NEUTRALISE
ACCUMULATED LACTIC ACID

A new scientifically formulated supplement to help relieve the effects of lactic acid build up in race horses, eventers, show jumpers, trotters and horses competing in endurance events.

Accumulation of lactic acid in the blood and muscles can occur in horses that are in rigorous training, or those fed a high concentrate ration.

No Ties is an acid base balancer, which will assist in the management of susceptible animals by maintaining the horse's buffer system and easing muscle fatigue.

PRODUCT BENEFITS

- Ideal for horses prone to tying up or suffering from muscle stiffness
- Helps maintain the horses buffer system and ease muscle fatigue
- New formulation for maximum performance
- Ideal for all types of horses

PREMIER E

ESSENTIAL ANTIOXIDANT & AMINO ACIDS FOR MUSCLE DEVELOPMENT

Premier E is a concentrated Vitamin E supplement for horses and ponies needing the highest levels of nutritional input.

Premier E is a powerful anti-oxidant formula which helps mop up free radicals in the muscle tissue.

Premier E also helps build healthy muscles and aids fertility.

PRODUCT BENEFITS

- High vitamin E content for natural peak performance
- Four key ingredients in a glucose base
- Assists in the maintenance of fertility in brood mares and stallions
- Helps to maintain healthy muscle tissue
- High Concentration of Methionine and Lysine
- 3,000iu of Vitamin E per day

RELAX COOLANT

COOL AND SOOTHING LEG & HOOF CLAY

A coolant clay traditionally for soothing swelling and soreness in tendons, fetlocks, suspensories, cannon bones and shins.

Relax is an ideal coolant for thinly spreading over the legs, following exercise or competition, and is easily washed off with cold water.

An entirely natural aqueous clay in a ready to use form, Relax provides a practical solution to constant problems.

PRODUCT BENEFITS

- Contains witch hazel for improved cooling
- Assists in the relief of swelling, bruising and soreness
- Ideal for use following exercise or competition
 - A natural 24-hour coolant clay
- Contains glycerine which makes for easier removal after application
 - Has many and variable uses as a coolant including Hoof Packing

500ml Tub

SULPHUR CREAM PLUS

MOISTURISING & EMULSIFYING CREAM
FOR USE ON CRACKED HEALS & MUDRASH

Sulphur Cream Plus is a soothing, moisturising, skin conditioning emulsion containing Methyl Sulphonyl Methane, Zinc Oxide and essential oils. Sulphur Cream Plus can be applied on cracked heels, cuts and sores, sweet itch and sore irritated skin.

As it contains a source of Organic Sulphur, MSM, which provides elasticity and healing repair to skin tissue, Sulphur Cream Plus is suitable for use for skin regeneration, for example to smooth out scars.

APPLICATION INSTRUCTIONS

Clean affected area with water and an anti-bacterial wash.
Dry with a clean towel / garment.

Apply Sulphur Cream Plus over affected area until completely covered.

Apply twice daily or as required. Store in a cool dry place and for external use only.

COMPOSITION

Water, Paraffinum Liquidum, Lanolin, Glycerine, Zinc Oxide, Methyl Sulphonyl Methane, Cera Alba, Tea Tree Oil, Rosemary Oil

PRODUCT BENEFITS

- Moisturising and soothing cream
- Contains MSM, providing elasticity and healing repair to skin tissue
- Aids skin regeneration and smoothing of scars
- No prohibited substances

ZARASYL CREAM

AIDS HEALTHY CONNECTIVE TISSUE GROWTH

ZarasyL Equine Cream is an essential skin care product for horses. It is a formulated barrier cream for application to skin of horses. ZarasyL contains a proprietary amorphous silica with a molecular structure tailored to provide sustained delivery of orthosilicic acid to the skin. Silica (SiO_2) is the oxide of silicon, the most abundant essential trace element in animals after iron and zinc. It occurs in crystalline form, such as quartz, or amorphous form, such as bottle glass and the silica found in plants. Amorphous silica is non-toxic via oral, dermal and ocular routes of exposure. In water it dissolves to form orthosilicic acid ($\text{Si}(\text{OH})_4$), the bioavailable form of silicon that's associated with healthy connective tissue growth. The oil free base ensures a moist, semi-occlusive environment.

PRODUCT BENEFITS

- ZarasyL equine is very easy to use and apply, it goes on to the skin and sticks very well.
- Clean and dry the affected area before use, apply the cream liberally once or twice daily.
- ZarasyL contains a proprietary amorphous Silico with a molecular structure tailored to provide sustained delivery of Orthosilicic acid to the skin.
- Orthosilicic acid is the bioavailable form of silicon that's associated with healthy connective tissue growth.

PRECAUTIONS

- For External Use Only
- For Equine Animal Use Only
- Store in Cool, Dry Conditions
- Keep Out Of Reach Of Children

This is not a veterinary medicine which is subject to the authorisation by the Health Products Regulatory Authority.

VIRKON S

BROAD SPECTRUM DISINFECTANT

10kg Container

50 x 50g Sachets

5kg Container

APPLICATION INSTRUCTIONS

Add contents of sachet or 50g to 5 litres of water to achieve a 1:100 (1%) solution.

Apply using spray equipment at 300ml per square metre.

Allow for a contact time of 10 minutes. Up to 30 minutes may be required when facing low temperatures, soiling, or for applications requiring DEFRA approved dilutions.

The ultimate broad spectrum virucidal disinfectant, proven effective against all 18 virus families affecting man and animals.

Virkon S is a broad spectrum disinfectant widely tested against viruses, bacteria, fungi and spores. Virkon S is suitable for use in all animal environments including equine stabling and tack, poultry housing for protection against most avian diseases.

PRODUCT BENEFITS

- Independently proven effective against viral, bacterial and fungal disease causing organisms
- Effective on porous surfaces, in hard water, at low temperatures and in the presence of organic challenge
- Ideal for livestock housing, surface, equipment, water delivery system and aerial disinfection

"Top class products from a company in business for more than thirty nine years, gives me trust and confidence that I am using the best products on the market for my horses."

William Haggas

Classic Winning & Leading UK Trainer

"I have been using Equine Products UK supplements for many years and would recommend them to anyone working with racehorses and bloodstock.

There's a wide range of supplements designed to support horses with specific issues, to great broad spectrum supplements - all of which help keep my string in the best possible condition and give them every chance of success on the racecourse."

Paul Nicholls

Eleven Times Champion Trainer

"With No Ties I know that my horses won't have muscle problems or stiffness from tying up.

It is an important part of my feeding regime."

Willie Mullins

Champion Trainer

"I use and feed a number of the Equine Products UK range to all my horses at home, and when competing because it is simple, they work."

Caroline Powell

International Event Rider, Olympian & Burghley Winner & EPUK Ambassador

64 TESTIMONIALS FROM TOP PROFESSIONALS

"I use this superb range of supplements & tonics throughout the season to ensure maximum performance and recovery"

Holly Smith

International Showjumper
& EPUK Ambassador

Excellent range of supplements and tonics to help my horses perform and recover to the highest level. Restorelyte, Haemavite, Selenavite E & Transvite Excel are my products of choice."

Ben Hobday

International Event Rider
& EPUK Ambassador

"TransVite from Equine Products UK is a superb probiotic product which helps my horses maintain a healthy digestive system.

I find it helps the horses hold condition and form throughout the year. It keeps them healthy on the inside and looking great on the outside."

Richard Hannon

Classic Winning Trainer

"One For Arthur, previously struggled to keep his weight consistent. After supplementation with a combination of products from Equine Products UK Ltd, he continued to improve physically all the way up to winning the Aintree Grand National 2017.

We love using Equine Products UK Ltd, they are high quality, delivered to us quickly and most of all, they work."

Lucinda Russell

Grand National Winning Trainer

"Equine Products UK offer a superb range of supplements and tonics that I use routinely in my training and feeding programme.

These products are manufactured to the highest standard and represent value and success for me."

Karl Burke

Leading UK Trainer

"I use Selenavite E, Restorlyte & Transvite during the competing season and find the results excellent. Ensuring my horses are rehydrated, receiving the correct vitamins and minerals with a healthy digestive system, is of utmost importance to me."

Rosie Fry

International Event Rider & EPUK Ambassador

"Cal-Phos from Equine Products UK is an excellent Calcium & Phosphorus product that we feed to all our stock to help with skeletal development and soundness.

In using the Equine Products UK range, we can rest assured that our horses are receiving the best possible start in life."

David Cox

Manager of Baroda Stud

"Since using EPUK supplements I have been delighted with the results and they have been extremely beneficial to our horses performance and recovery.

Richard Howley

International Show Jumper
& EPUK Ambassador

66 TESTIMONIALS FROM TOP PROFESSIONALS

"I use Equine Products UK Restore-Lyte Gel as a recovery aid for my horses after racing and galloping.

It is an excellent product to replace lost electrolytes quickly and helps the horse to achieve its maximum potential."

Richard Fahey

Group 1 Winning Trainer

"Of all the products I use, the one that has been great this year is Haemavite B Plus.

With all the traveling and competing I do, it keeps the horses energy levels up and feeling well all the time."

Harriet Nuttall

International Show Jumper
& EPUK Ambassador

"Excellent products with quick acting results and a brand I can trust and turn to."

Amy Murphy

Trainer of Kalashnikov
Winner of the Grade 1 Aintree Novices Chase 2019

"The Equine Products UK Ltd range of supplements and tonics ensure my horses perform and recover to their maximum potential.

They are products I highly recommend and rely upon."

Harry Fry

Leading UK National Hunt Trainer

"Premier E is my go to product supplying high levels of Vitamin E to help with the daily rigours of training racehorses."

Nicky Richards

Leading National Hunt Trainer

"Professional company, superb products which have helped our horses. The results speak for themselves"

Jessica Harrington

Leading Irish Trainer

"Of everything I spend money on for my horses, the Equine Products UK range is the best because it works."

Neil Mulholland

Leading UK National Hunt Trainer

"In feeding Premier E from Equine Products UK, I know that my horse's nutritional requirements are met and they will be able to perform to their potential."

This super Vitamin E product is my go-to product every day."
